

COMPANY PROFILE

“All the Technology you Need”.

AdvanceTech India Pvt. Ltd.

www.atechindia.com

Established: 1999

Head office: ***Chandigarh, Jaipur , Pune***

Corporate office: ***Zirakpur, Punjab,***

Advance Tech Ind Pvt Ltd

Advance Tech Ind Pvt Ltd., Chandigarh is an **ISO 9001:2008** Certified Company , with three different verticals , offering complete range of solutions,

With total 16 years of experience .\

We have big team of engineers and management professional for offering wide range of solutions.

We have full manufacturing facilities as well as R&D facilities for designing new products.

We have developed a new innovation team to work on futuristic technology products, like wearable products

Working domain and verticals

Industrial Automation division

We offer various solutions under industrial automation Using PLC and customized electronics related Products design etc ,we offer various sensor based data loggers , like ph , humidity , soil , energy etc.

We have wide range of data display and good facility for **AGRI , Biomedical and defense based projects ,**

We also offer special design facilities for DRDO & CSIR and other premier research labs as well as industries .

Building Automation Division :

Building automation offer new tools for Lighting automation .

Energy automation solutions ,

Security based solutions Like CCTV , Biometric based access and attendance system ,

RFID based access control and inventory automation system ,

PA public address system , Fire and smoke control , and many others ,

We have good facilities for conference and board room designing solutions .

Technical Education Division :

We offer complete range for education products for electronics , mechatronics, instrumentation and electrical Lab solutions,

Most of our products are for higher labs and research oriented , Like advance fiber optics , image processing , Embedded and advance wireless and communication labs .

We also have variety of instrumentation sensors and control lab facilities,

Advance Technology Experts: we offer expertise in latest Technology domains, in the specialized technology like in Embedded System, VHDL, PLC, Robotics, PCB Designing .

Advance Tech ind Pvt Ltd, Chandigarh

www.atechindia.com

Research & Development: Advance Technology has state-of-the-art computerized design facilities and a team of design engineers to develop any equipment as per the customer's need. All arrangements are made right from start to end of project i.e. designing, manufacturing, installation etc.

Key technology domains : our best strength is the technology domain , we working with the following tools , software's and systems ,

- ✓ Embedded System (8051, PIC, AVR & ARM) & POWER PC
- ✓ Wireless (GSM, Bluetooth, RFID, Biometric, Wi-Fi, X-Bee)
- ✓ VLSI Design (FPGA + CPLD)
- ✓ PCB High end PC Design Software's .
- ✓ PLC / Industrial Automation / Lab view software
- ✓ robotics , instrumentation , sensors , GUI ETC
- Python and .net software design platforms .

We are design partners with various multinational companies and use this semi conductors in our designs .

Registration and associations

We are registered with DRDO and other Govt Organization,
We are registered with MSME and NSIC Kind of Govt Organizations .
We are members of industry bodies , Like CII , FICCI and others .

Sales & application support :-

We have office and presence across country , with sales and application teams ,
We have channel partners across india and other countries , to support our export business .

Head Office: Chandigarh
