

AdvanceTech Offers

Air Quality Monitoring

- AdvanceTech offers a air quality system to monitor a parameters

So₂ , No₂, Pm₁₀, Pm_{2.5}, O₃, CO, Nh₃, Pb& Ni, C₆, H₆

- Operating Temperature : -20° to + 60° C
- 4 Channel Data Logger all channels are 4-20 mA.
- 1 SDI 12 Channel / Rs 232 / 2 Digital Channel
- Clock Accuracy :- 8.2/Minute
- GPRS Server based data logging can monitor online data from field.
- Minimum 8GB memory storage to store atleast 5 year data .
- Set point in all channel for buzzer alarm alert by GSM in case of fluctuation.
- Can download data from memory card in a excel format.
- Logger should have inbuilt Bluetooth module, battery operated device .
- Sampling rate and set point should be set by GSM, Accuracy $\pm 0.1\%$

IOT Based Cold Room

- AdvanceTech Offer's Cold Chamber which is used in horticulture Research & Projects works for Fruits Prevrage to maintain a single or multiple temperature Range.
- Customize automation of green house by PLC Controller.
- This unit has double walled insulated PUF modular panels, which can easily be assembled at site without any major hassles.
- Interior is made of Stainless Steel and Exterior is either made of Mild Steel Stainless Steel trays.
- The unit has double walled leak proof metal door with lock, with a provision of opening door from inside, forced air circulation for uniform temperature.

Ethernet Port to communicate the data in cloud, EMI or LCD Display.
