

# AdvanceTech Offers Automatic Weather Station

## Automatic Weather Monitoring System

- AdvanceTech offers IOT based weather monitoring system which logged a data in memory card or also in cloud.
- We can control/ monitor the IOT based AWS by mobile app.
- This product can be combined with a control system that is needed in many applications; such as agricultural applications / Research purpose
- Warm Effect needs climate monitoring. Studying of Climate requires comparing climate behaviors between different years and decades.

## Types of Sensors

- Temperature Sensor.
- Humidity Sensor.
- Atmospheric Pressure Sensor.
- Wind Speed & direction Sensors.
- Rain Guage.
- Solar radiation.
- Dew Point.
- Wind Vane.
- Evaporation and many more sensors can be interfaced as per customer need.

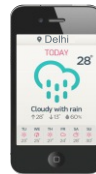

## Communication Protocol

Cloud based

Logging in memory card

App Based through IOT

## Our prime customers

All The Technology You need
