AdvanceTech — All The Technology You Need

Technical Specification

IOT Indoor Gateway Indoor Lora WAN based Gateway

Features

- Open Source Open WRT system
- Managed by Web GUI, SSH via LAN or WiFi
- Emulates 49x demodulators
- WAN Gateway
- 10 programmable parallel demodulation paths

Advance Outdoor Gateway with Sim Card & Poles for Mounting

Features

- Web GUI, SSH via LAN or WiFi
- Outdoor Long Range loT Gateway
- Long Range loT packet filtering
- Farseeing LED indicator
- Built-in GPS module for location and timing
- 802.3af PoE option to addon
- IP65
- Power Consumption:12v 300 -500mA
- 10 feet GI pole for mounting
- WPC Certified
- Sim Card with 3 Year Data pack for monitoring data at server application
- Lighting Protection
- 10M/100M RJ45 Ports x 1 1 x 2.4G WiFi (802.11 bgn) 1 x USB host port Power by 12v DC or PoE
